

Jewellery designed by Sally Reece

Produced by the latest 3D imaging techniques, we are able to offer two high quality jewellery pieces which retain the detail and character of Sally's larger sculptures. Each miniature sculpture carries the initials SMR, heavier pieces carry the Birmingham UK assay mark as proof of quality and origin. Each piece is hand-made by highly skilled jewellery craftsmen in England.

Prices include belcher chain in same material if required. Available as sterling silver and as gold plated.
